Top Skills

Python (Programming Language)

SQL

Microsoft Power BI

Certifications

Data Analysis with Python

Data Analysis with Python

Data Analysis with Python

Waqar Ali

Student / Data Science Enthusiast

Karāchi, Sindh, Pakistan

Summary

Hi, Im Waqar Ali. I focus on turning data into insights that make a real difference. Skilled in Python, SQL, and Power BI, I enjoy tackling real-world problems and exploring machine learning and AI. I thrive on collaboration, sharing ideas, and working on projects that create impact. Lets connect and exchange ideas!

Experience

Self-Learning / Independent Projects

Aspiring Data Analyst & Data Scientist

June 2024 - Present (1 year 5 months)

Karāchi, Sindh, Pakistan

Currently focusing on building skills in Data Analytics and Data Science through self-learning and practical projects.

Hands-on experience includes:

- Titanic Survival Prediction using Python and Machine Learning
- Sales Dashboard creation using Power BI and Excel
- Data Cleaning and Analysis pipelines with Pandas and NumPy

Exploring Python, SQL, data visualization, and beginner-level machine learning to prepare for entry-level opportunities in Data Analytics and Data Science.

Education

Sir Syed University of Engineering & Technology (SSUET)

Bachelor of Science – Computer Science · (June 2021 - July 2025)
